The Importance of History for Economic Development

ships between historic events and economic development For many studies, the goal is also to explain exactly how and why specific historic events can continue to matter today That is, the literature has moved from asking whether history matters to asking why history matters: See Acemoglu & Johnson (2004), Acemoglu et al (2005a), Iyer (2007),

Economic History and Economics

For better or worse, however, economics has gone down a different path, not the one I have in mind One consequence, not the most important one, but the one that matters for this discussion, is that economic theory learns nothing from economic history, and economic history is as much corrupted as enriched by economic theory I will come to
